

## EXPLORING MARINE LIFE

In the centre we also run many exciting in-water activities that feature Marine Biology as well as providing entertaining and informative presentations. We are also developing a program of Marine Biology projects which will include ongoing research and reef monitoring and have initiated a coral tray adoption program. Interested guests are very welcome to participate in these programs.

Our belief is that you should not leave Velassaru without having the opportunity to discover first-hand the exceptional aquatic life of the Maldives!

### DOLPHIN DISCOVERY

Learn the basics about spinners and bottle nose and hop on-board to hopefully watch them in their own habitat on this one and a half hour trip.

Trip	65
